

## Google Classroom Directions for Parents

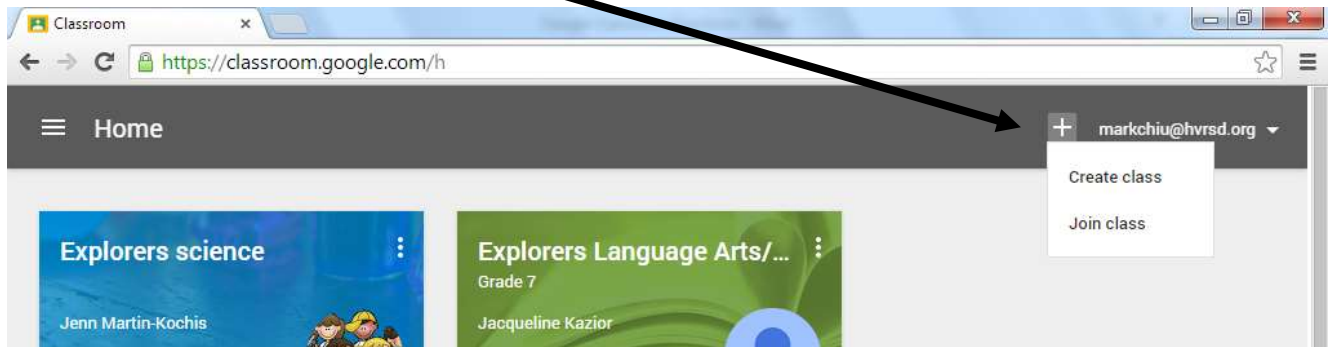

1. Using your child's school issued Chromebook, go to **classroom.google.com**. You may be directed to log into an account instead of reaching the classroom screen. If you reach the screen, skip to STEP 3.

2. You **must be logged in to your child's school account** in order to access any Google classroom. Click "Sign In" in the top right hand corner if you currently are not signed into any google account. If you are on another Gmail account, you will need to sign out of it and log in with your child's Hale'iwa account. You **should have** access to their username and password.

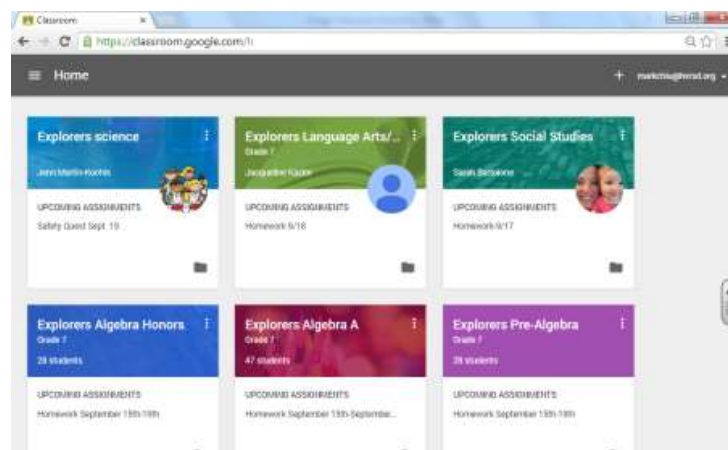

- Once you are logged in and on the classroom.google.com site, click the “+” in the top right hand side of the screen.
- Select “Join Class”.

- Enter the class code(s) from your child's teacher.

- The classrooms that you are now joined to will now be one screen. The next time you use classroom.google.com, this will be the “home screen”.

Google Classroom is a web-based learning environment. When logged into Google Classroom, students can collaborate with their peers and teachers. Google Classroom offers a digital safe space for students to view class announcements, access posted course content, view posted assignments, and turn in completed work. Please note that any activity in Google Classroom is documented under the student’s login and it would be inappropriate for a parent to communicate with the teacher or other students in Google Classroom. Parents should use their personal email to digitally communicate with the teacher.
