

## What is Clever?

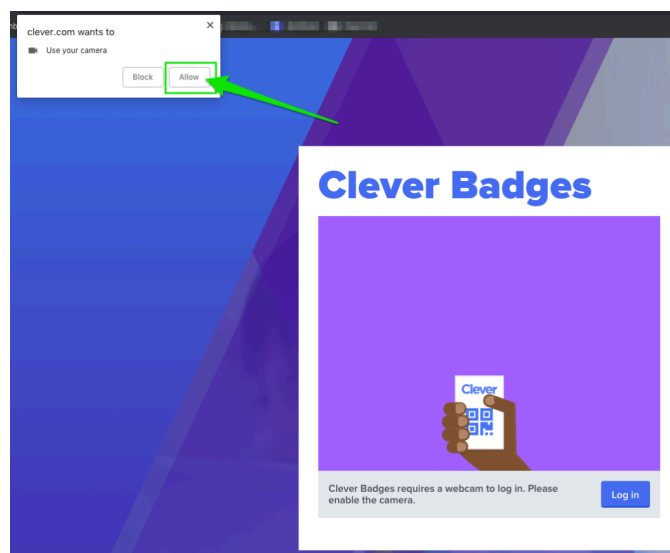

Clever is an easy way for your child to log in and learn with many of the school's online programs. Schools use Clever so students can have their digital resources in one place. Clever also eliminates the need to remember multiple usernames and passwords.

## How can my child log in to Clever?

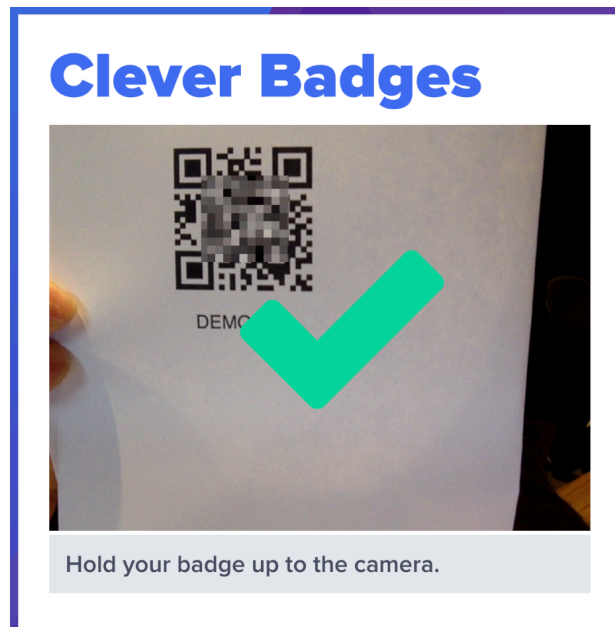

Your child can visit [clever.com/login](https://clever.com/login) to find their school and log in to Clever with their school-provided username and password (student's 10 digit SSID # and birthday MMDDYYYY) or with their Clever badge.

The screenshot shows the login page for the Hawaii Department of Education. At the top left is the state seal of Hawaii, followed by the text "Hawaii Dept Of Education" and a link "Not your district?". Below this is a "Login information" section with two input fields: "USERNAME" and "PASSWORD". The password field has a "Show" link to its right. Below the fields is a link "Having trouble? Get help logging in!". At the bottom right of the login section is a "Log in" button. To the right of the login section is a large graphic with the Clever logo and the text "Clever Badge log in" and "District admin log in".

Your internet browser may ask you to allow clever.com to use your device's camera. Select 'Allow'.

Hold your student's Badge up to the device's camera, and wait for the green checkmark to log your student into Clever.

Once your student is logged into their Clever Portal, they can click on the application icon they'd like to use:
